RePower Canada
22 White Crescent
Barrie, ON
L4N 5Z9

Attention: Iain Robertson

Dear Iain,

Re: Reference Letter

Congratulations on your nomination for the 2009 Barrie Green Business Award.

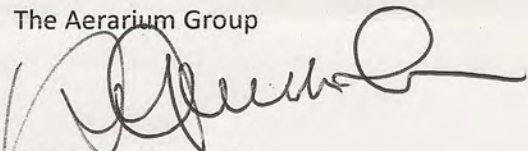

We are pleased to provide a reference for RePower Canada and your team. You and Jason have helped us make informed decisions with regard to making our business more green and energy efficient. Your honesty and straightforward approach to your assessment process and the results gave us confidence in our decision to move ahead with your Energy Action Plan.

What we believe sets you apart from other energy consulting firms is the independent nature of your company. You consider all the potential angles of a project and the resulting outcomes, both good and bad. You are not trying to sell us anything; you simply want to help us be green, save money and look out for our best interests. In addition your sincerity when it comes to the area of energy conservation and your mission is almost unique in this day and age.

We look forward to your ongoing support. We will continue to come to you for advice and support with regard to energy and environmental matters.

Yours truly,

The Aerarium Group

R.G. (Rob) Nicholson
